2. Citations and explanations (Rule 70.7)

Documents cited in the International Search Report:

D1: US, A, 1879803 D2: US, A, 5516261

The cited documents represent the general state of the art.

The invention defined in claims 1-4 is not disclosed by any of these documents.

The cited prior art does not give any indication that would lead a person skilled in the art to the claimed centrifugal pump for pumping of liquids containing pollutions mainly in the form of solid particles. Therefore, the claimed invention is not obvious to a person skilled in the art.

Accordingly, the invention defined in claims 1-4 is novel and is considered to involve an inventive step. The invention is industrially applicable.
